

# UNDERSTANDING CLINICAL RESEARCH

Some research studies let us play games and chat with friends. This is how researchers learn how we communicate and treat one another!

Children's Hospital of Philadelphia Research Institute continues its groundbreaking research on numerous diseases and disorders that effect children. Without families and individuals like you to participate in research, many breakthroughs would not be possible. **Scan the QR code on the left to sign up to our Research Participant Registry. Questions? E-mail the Recruitment Enhancement Core at [participantrecruitme@email.chop.edu](mailto:participantrecruitme@email.chop.edu) or call 267-426-6846.**
