

Study ID _____

Collection Date: MONTH _____ DAY _____ YEAR _____

Collection Time: _____

Sample Time Point:

| | | | | |
|------------------------------------|------------------------------------|------------------------------------|------------------------------------|------------------------------------|
| <input type="checkbox"/> 1 Month | <input type="checkbox"/> 3 Months | <input type="checkbox"/> 6 Months | <input type="checkbox"/> 9 Months | <input type="checkbox"/> 12 Months |
| <input type="checkbox"/> 15 Months | <input type="checkbox"/> 18 Months | <input type="checkbox"/> 21 Months | <input type="checkbox"/> 24 Months | |

Instructions:

After changing your baby's diaper, please collect the samples immediately following your baby's bowel movement.

1. Using scoop attached to the brown top tube, collect a pea-sized amount of stool and tightly screw back on the blue top (scoop still attached)
2. Place tube in clear bag
3. Repeat for second sample
4. Fill out the back of this form
5. Place samples in white paper bag and immediately in your freezer
6. Immediately email us at TheMagicStudy@email.chop.edu to schedule courier pick up
