

Study ID _____

Collection Date: MONTH _____ DAY _____ YEAR _____

Collection Time: _____

Please indicate all sample locations collected: Nose Armpit Groin

Sample Time Point:

1 Month 3 Months 6 Months 9 Months 12 Months

15 Months 18 Months 21 Months 24 Months

*If all samples were not collected at the same time please indicate new date/times

Nose _____ / _____ Armpit _____ / _____ Groin _____ / _____

Instructions: Collect skin swabs around the same time as the stool samples (Do Not Touch Swab)

Nose Swab

1. Tilt baby's head back slightly and insert the one swab tip into each nostril
2. Rotate the swab stick slowly 5 times against inside of nostril
3. Using the second swab, repeat steps 2 & 3 for the second nostril

Armpit Swab

1. place the swabs against the skin of the armpit
2. Rotate the swabs against the skin slowly 5 times.
3. Repeat steps 2-4 on the opposite arm

Groin Swab

1. Place the swab in the top of the inner thigh crease and swab down towards the anus
2. Repeat step 2 on the opposite side
3. Please try not to get poop on swabs during collection

Place swabs in plastic bag, complete Specimen Collection form, and keep at Room Temperature.
