## CALL FOR ABSTRACTS

The Children’s Hospital of Philadelphia Global Health Center is accepting abstracts for presentation at our conference, **Making Up for Lost Time: Addressing Children’s Needs Post-Pandemic**, to be held Friday and Saturday, Oct. 29 – 30, 2021. Abstracts may be related to any aspect of global child health, though we are particularly interested in those focusing on addressing children’s needs post-pandemic. Abstracts in the categories of original research, program evaluation/public health, quality improvement, clinical care and personal narratives will be considered. Please note, personal narratives must include background, summary of experience and key takeaways from your experience in a global setting such as providing care to children while working to mitigate the impact of COVID-19.

Submitted abstracts should address any aspect of global child health — either “global-global” or “local-global.” The themes below link to this year’s topic and are provided to stimulate thought as you prepare to submit and share your work:

- Strengthening health systems to meet the demand for delayed care, improve and maintain infection prevention and control measures, and promote innovative interventions developed during the pandemic to improve care delivery
- Prioritizing the development and implementation of mental health services to address children’s and adolescents’ mental health needs
- Mitigating the impact of disrupted learning and unequal access to virtual education on children and adolescents
- Addressing inequities in the social determinants of health to promote global child health and wellbeing
- Other topics of interest to the pediatric global health community

## ABSTRACT SELECTION PROCESS

Abstracts will be selected for presentation based on quality, merit and relevance to the pediatric global health community. Projects may be in various stages of development. Abstracts will be accepted for oral poster and short-oral presentations, and an Abstract Review Committee will determine acceptance following blinded peer review.

The Abstract Review Committee will review abstract submissions based on the following criteria:

- Relevance of topic
- Originality
- Pediatric global health merit and importance
- Quality of research design and data analysis
- Quality of conclusions
- Clarity of writing

## POSTER PRESENTATION FORMAT

- Every person or group with an accepted abstract will be asked to give a presentation, either in an oral poster-walk session or in a short-oral session. During the poster-walk session, a moderator assigned to each group will coordinate the order of the presentations and questions. Regardless of whether a poster is in printed or e-form, presenters will each give a five-minute overview of their work and will have time to take one or two questions. Instructions for preparing posters (including format and size) will be provided to the contact author with the presentation acceptance notification in July 2021.

## GENERAL ABSTRACT SUBMISSION POLICIES

- Electronic submission deadline is Friday, July 2, 2021, by 11:59 p.m. EST
- Please use this link:  
<https://chop.cloud-cme.com/course/courseoverview?P=5&EID=2584> to create an account on CHOP's CME website to submit an abstract
- Abstracts should be no longer than 300 words
- There is no limit to the number of abstracts submitted by each author, but the submission of multiple, similar abstracts from the same investigator is discouraged
- Each abstract submitted should be for a distinct project
- Abstracts submitted or presented at other meetings may be submitted for consideration
- Upon submission, the submitting author verifies that all authors have agreed to submit the abstract and that all submitted information is true
- Abstract submissions are open to students, researchers, clinicians, and public and global health practitioners

## NOTIFICATION OF ACCEPTANCE

Notification of abstract acceptance will be emailed to the contact author listed on the abstract after Monday, July 26, 2021. If you have not received notification by Monday, Aug. 2, 2021, please contact the CHOP Global Health Center for assistance at [globalhealthcenter@email.chop.edu](mailto:globalhealthcenter@email.chop.edu).

**Paid registration is REQUIRED to attend the conference and present a poster.**

**Submission of an abstract DOES NOT AUTOMATICALLY REGISTER YOU for the conference.**
